Education

De La Salle University – Manila — Manila, Philippines

Bachelor of Science in Computer Science, Major in Software Technology — *2022 – Dec 2026 (Expected Completion)*

Experience

InterAsia Outsource, Inc. — Makati City, Philippines

Software Engineer Intern → Contract Software Engineer — *May 2026 – Present*

- **Bill&Pay billing & payroll platform** (Next.js, TypeScript, Prisma, PostgreSQL, Supabase): one of two engineers who launched it from zero, covering codebase setup, schema design, wireframes/mockups, requirements gathering with Finance, stakeholder demos, and QA.
- Built the Workers, Clients, Billing, and Timesheets modules end to end, including styled XLSX/PDF billing exports with management-fee and VAT/WHT computations.
- Built preview-and-confirm spreadsheet ingestion for timesheets, mandays, and advances, with OCR proof ingestion, fuzzy worker matching, and conflict detection to reduce manual encoding errors.
- Retained post-internship on a project-based contract to complete the system through handover: system administration, document-ingestion pipelines, and app-wide bug fixing.
- Sole developer of the Grade Code customization: scoped and estimated the work, then delivered stable grade codes per position with a per-client, date-effective billing setting across billing and payroll outputs (in final testing; handover Nov 2026).

Projects

May Reviewer – AI Exam Generator | *Next.js, TypeScript, Gemini, Mistral, Supabase* | mayreviewer.vercel.app | github.com/yuriolvrs/mayreviewer

- Notes-to-exam app with a multimodal pipeline (PDF/DOCX/images, 10 files up to 40MB) on Gemini with Mistral fallback, including AI format inference from past exams.
- Supabase Auth (email/Google) with cloud sync over local-first storage; rate limits, prompt-safety validation, and Vitest + Playwright coverage.

Dovetailed – Job Application Assistant | *React, TypeScript, Cloudflare Workers, Groq, IndexedDB* | dovetailed.pages.dev | github.com/yuriolvrs/dovetailed

- Live app that turns job postings into match analysis and tailored resumes/cover letters, with an application tracker, LaTeX export, and Mistral-OCR import.
- Hallucination-resistant generation: every bullet traces back to profile evidence; unsupported claims are flagged, never fabricated.

Kabu Kids – AI Dining Companion (Thesis) | *Python, Whisper, GPT-OSS, MongoDB* — *Jan 2025 – Aug 2026*

- Multimodal companion app for children 6–12 combining speech-to-text, facial-expression recognition, LLM conversation, and voice output.
- Benchmarked candidate models, wrote test plans, and validated the app with child testers (with consent) using quantitative and qualitative analysis.

Leadership

Viridis Arcus Esports — De La Salle University – Manila

Assistant Director for Internals (prev. Junior Officer) — *Jun 2024 – Aug 2026*

- Led community events, tournaments, and general assemblies as project head, coordinating fellow officers across internal teams.
- Managed organizational documentation including event proposals and post-event reports.

Technical Skills

Languages: TypeScript, JavaScript, Python, Java, C/C++, HTML/CSS, SQL | **Frameworks**: Next.js, React, Node.js, Tailwind CSS, Prisma | **Data & Infra**: PostgreSQL, Supabase, MongoDB, Cloudflare Workers/Pages, Vercel, GitHub Actions, Docker | **AI**: LLM integration (Gemini, Groq/GPT-OSS, Mistral), OCR (Tesseract, Mistral OCR), Whisper | **Delivery**: requirements gathering, scoping & hour estimates, stakeholder demos, UAT, documentation & handover | **Tools**: Git, Vitest, Playwright
